

Risk Control Services: DICE

In today's competitive Documentaries, Industrial, Commercial, Educational Films (DICE) industry, time equals money. Even a one day interruption can come at a significant cost to your production and reputation. That is why securing the proper insurance and implementing the right risk control strategies is important to achieving success.

For more information, visit the Risk Management page at onebeaconentertainment.com or contact Chuck Redington at 508.572.0068 or credington@onebeacon.com.

We focus on covering the risks, so your business can focus on what it does best. Producers have different goals and objectives. Projects are very distinct, ranging from entertainment to education. That makes the risks involved with each situation different as well. Developing coverage solutions for each of these situations on a tailored, individual basis takes a broad range of expertise and experience. That's what we provide.

Safety Promotes Profitability

When it comes to DICE, you need much more than the right storyboard to be successful. You must also produce and create safely and efficiently. Injuries and incidents involving cast, crew, equipment or third parties will have a drastic effect on your ability to successfully deliver your film project.

Our dedicated team of Risk Control experts is here to partner with you to provide consultative expertise and to make sure your production happens without incident or interruption.
